Tuesday, April 12, 2011, 9:00am – 4:00pm
Transportation to IBM Location leaves from Orange
County Convention Center at 8:15am

Gaylan Braselton
IBM Sales Consultant, NA
Oracle on System Z

gbrasel@us.ibm.com

- **Session 478**
Installing Oracle 11gR2 on Linux on IBM System z (Tuesday)

Bootcamp Speakers: *Gaylan Braselton, System z Oracle Sales Consultant, IBM; Vaughn Burton, Advanced Technical Skills Instructor, IBM; Doug Yellick, Advanced Technical Skills Instructor, IBM, Dave Simpson, IBM z Oracle Technical Specialist*

Location: *SmarterPlanet Conference Facilities at SmarterPlanet presented by IBM at INNOVENTIONS West at Epcot® at the Walt Disney World® Resort*

Transportation will leave the Orange County Convention Center at 8:15am Tuesday for this Bootcamp. All attendees must use this transportation to gain access to the bootcamp within EPCOT. Snacks and lunch will be provided at the bootcamp, and return transportation will get you back to Orange County Convention Center at approximately 5:00 pm.

- **This full-day Bootcamp will be conducted at an offsite location (transportation provided) and will be of interest to DBAs, system administrators and planners, who are considering a move or installation of Oracle 11gR2 on Linux on IBM System z. Information will be presented to familiarize the attendee with IBM System z and the zEnterprise technology, and major software components will be showcased through lecture and hands-on labs. Attendees will have the opportunity to perform installation and customization activities on a Linux SLES 10 64 bit system, and Oracle 11gR2. Performance tools available for z/VM, Linux and Oracle will be discussed. Enrollment will be limited to the first 20 enrollees. This session is offsite; transportation will be provided. To enroll please designate this Bootcamp in your COLLABORATE enrollment, and also send a note to gbrasel@us.ibm.com.**

Topics -- Oracle System z Bootcamp

- **z/VM fundamentals and customization based on z/VM 6.1**
- **Linux fundamentals and installation based on SLES 10 64 bit operating system**
- **Oracle 11gR2 installation and configuration**
- **Factors affecting performance of Oracle 11g**
- **Linux performance tools**
- **z/VM performance toolkit**
- **zEnterprise Overview**

THANK YOU
